## Gov't renews truce offer to Reds

But rebs reject condition for peace talks revival

THE GOVERNMENT has renewed an offer to resume peace talks with the Communist Party of the Philippines (CPP) in a step to ending a five-decade rebellion, Cabinet Secretary Salvador Panela said yesterday.

The continuing conflict has cost the country millions of pesos in damages and lives.

Panela said the government is offering the rebels a ceasefire and a return to the political arena.

He said the offer is a step to ending the conflict and a return to the political arena.

The government has offered the rebels a ceasefire and a return to the political arena.

Panela said the offer is a step to ending the conflict and a return to the political arena.

### The condition

Panela said the offer is a step to ending the conflict and a return to the political arena.

# Prosecutors want judge to stay in Trillanes trial

Reyes of Justice

MANILA (AP) — Prosecutors want Judge Antonio Reyes to stay in the Trillanes trial, saying he is the best judge for the job.

Reyes, 52, is a judge in the Manila court system.

Reyes was assigned to the Trillanes trial in 2002. He is the only judge in the Manila court system who has not been impeached.

# 'ECONOMY IS BOOMING'

## Palace: No to big tax cuts

MANILA, Philippines — President Gloria Macapagal Arroyo said today that the government will not pursue a policy of big tax cuts to stimulate the economy.

Arroyo said during a press conference in the presidential palace that the government will not pursue a policy of big tax cuts to stimulate the economy.

"The economy is growing, and we are not going to pursue a policy of big tax cuts to stimulate the economy," Arroyo said.

## PAF to swap plane parts with Thailand

MANILA, Philippines — The Philippine Air Force (PAF) is planning to swap parts with the Thai Air Force (TAF) to maintain its fleet of F-16 fighters.

The PAF is planning to swap parts with the TAF to maintain its fleet of F-16 fighters.

The PAF is planning to swap parts with the TAF to maintain its fleet of F-16 fighters.

## OPINION

Table 1. *Salmonella* serotypes isolated from cattle and sheep

**U.S. GOVERNMENT PRINTING OFFICE**

### Environmental overview

**L**et's face it: the only way to make a good impression on the people you're talking to is to be well-informed. And the only way to be well-informed is to read. That's why we've put together this list of 10 books that will help you to become a more successful salesperson. They're all books that have been recommended by other salespeople, and they're all books that will help you to become a more successful salesperson. So, if you're looking for a good book to read, look no further. These 10 books are the ones you need to read.

1. **FORMAL**

Figure 1 is a 3D bar chart illustrating the distribution of the number of children per family (Y-axis, 0 to 10) across different levels of education (X-axis, 1 to 10) and income (Z-axis, 1 to 10). The chart shows that the number of children per family generally decreases as the level of education and income increases. For example, at the lowest education and income levels, the number of children per family is highest (around 8-10), while at the highest education and income levels, it is lowest (around 1-2).

For the purpose of this study, the following hypotheses were formulated:

Trial	Control	MCI	AD
1	85	75	65
2	85	75	65
3	85	70	60
4	85	65	55
5	85	60	50

Detailed description of Figure 1: This is a line graph with 'Rate of polymerization' on the vertical axis and 'Concentration of inhibitor' on the horizontal axis. Both axes have major tick marks at 0, 0.5, and 1.0. A smooth, decreasing curve is plotted, starting at the point (0, 1.0). The curve passes through approximately (0.2, 0.8), (0.4, 0.65), (0.6, 0.55), and ends at (1.0, 0.5). The curve is concave up, indicating that the rate of polymerization decreases at a decreasing rate as the inhibitor concentration increases.

*(continued)*

The diagram illustrates the experimental setup. A subject is seated at a table, looking at a video screen. A camera is positioned above the screen to capture the subject's view. A light source is positioned to the left of the screen. The subject is viewing a video screen that displays a target. The camera is positioned above the screen to capture the subject's view. The light source is positioned to the left of the screen. The subject is seated at a table, viewing a video screen. A camera is positioned above the screen. A light source is positioned to the left of the screen.

## Another Cordilleran found murdered in Canada

**Newsweek**

Grounded in the mid-1980s, the Cordilleran was a small, private, and somewhat obscure publication. It was founded by a group of people who were interested in the environment and the Cordillera region. The publication was known for its in-depth reporting on environmental issues and its focus on the Cordillera region. It was a small, private, and somewhat obscure publication. # War-time executions: S. Korea bares brutal past

JEJU ISLAND, SOUTH KOREA — In the shadow of a massive, dark stone monument, a group of people gathered for a somber ceremony. The monument, known as the War-time Executions Memorial, stands as a stark reminder of the brutal past of Jeju Island. The ceremony was held to mark the anniversary of the mass killings that took place during the Korean War. The victims, mostly civilians, were executed by the North Korean army and the Chinese People's Volunteer Army. The memorial is a large, dark stone structure with a central archway. It is surrounded by a low wall and a path. The ceremony was attended by local residents, government officials, and members of the military. The atmosphere was solemn and reflective. The memorial is a symbol of the suffering and loss that the people of Jeju Island endured during the war. It is a place where the past is remembered and the future is hoped for.

There is also a large, dark stone monument in the center of the island. It is a symbol of the suffering and loss that the people of Jeju Island endured during the war. The memorial is a place where the past is remembered and the future is hoped for. The ceremony was held to mark the anniversary of the mass killings that took place during the Korean War. The memorial is a symbol of the suffering and loss that the people of Jeju Island endured during the war. It is a place where the past is remembered and the future is hoped for.

Canada halted transfer of Afghan detainees due to torture concerns

OTTAWA — Canada has halted the transfer of Afghan detainees to the United States, citing concerns over torture and human rights. The decision was announced by the Canadian government, which stated that it was unable to verify the treatment of the detainees. The detainees were being transferred to the U.S. as part of a bilateral agreement between the two countries. The Canadian government has been criticized for its handling of the detainees, with some accusing it of complicity in human rights abuses. The decision to halt the transfers was a significant move, as it showed Canada's commitment to human rights and its refusal to be part of a system of torture. The detainees are now being held in Canadian custody, and the government is working to ensure their rights are protected.

## Gov't wants VAT on oil to fund health care

DOF eyes ways to ease consumers' tax burden

By Bernard Llanera

MANILA, Jan. 24 (PNA) — The Department of Finance (DOF) is looking for ways to ease the tax burden on consumers, particularly on the oil industry, to fund health care. The DOF is considering a value-added tax (VAT) on oil, which would allow the government to collect more revenue to fund health care. The DOF is also considering a VAT on other goods and services, which would allow the government to collect more revenue to fund health care. The DOF is also considering a VAT on other goods and services, which would allow the government to collect more revenue to fund health care.

## Peso climbs for second straight day, closes at 41.18

By Bern L. Llanera

MANILA, Jan. 24 (PNA) — The Philippine peso climbed for the second straight day, closing at 41.18 against the US dollar. The peso's rise was driven by a combination of factors, including a strong performance by the Philippine economy and a decline in the value of the US dollar. The peso's rise was also driven by a combination of factors, including a strong performance by the Philippine economy and a decline in the value of the US dollar.

# EPHC eyes Meralco shares

By Elizabeth Sandoval-Lemus

MANILA (AP) — The Philippine Electric Power Corp. (EPHC) is eyeing shares of the Manila Electric Co. (Meralco) as a way to raise funds for its expansion program, a source familiar with the matter said.

The source said EPHC is considering a public offering of shares of Meralco, which is a subsidiary of the government-owned National Power Corp. (NPC).

EPHC is planning to raise about \$1 billion to fund its expansion program, which includes the construction of new power plants and the acquisition of existing power companies.

The source said EPHC is currently in the process of evaluating the feasibility of a public offering of Meralco shares.

EPHC is a government-owned corporation that was created in 1988 to manage the country's power sector. It is currently the largest power producer in the Philippines.

# Flowers for your skin

THE NEW YORK TIMES

By [illegible]

NEW YORK — If you're looking for a way to keep your skin looking young and healthy, there's a new trend in the beauty world that's worth paying attention to: flowers. Not just in the garden, but in the bottle. A growing number of skincare products, from cleansers to moisturizers, are now infused with the essential oils and antioxidants of various flowers. The idea is simple: flowers are packed with natural compounds that can help protect your skin from environmental damage, reduce inflammation, and promote a healthy glow. And, of course, they smell amazing.

At the heart of this trend is the concept of "floral skincare." It's a holistic approach that combines the beauty of nature with the science of dermatology. Popular floral ingredients include rose, lavender, chamomile, and geranium. Each flower has unique properties that can benefit your skin in different ways. For example, rose is known for its ability to hydrate and soothe, while lavender has calming and anti-inflammatory effects.

But it's not just about the ingredients. It's also about the experience. Using a floral-infused product can be a sensory delight, with the pleasant scent adding to the overall effectiveness of your skincare routine. Whether you're a fan of classic roses or more exotic blooms, there's a floral product out there for you. So, next time you're at the store, don't forget to look for that floral scent. Your skin will thank you.

Figure 1 displays 15 line drawings of fish species, labeled I through XV. The drawings are arranged in a grid-like fashion, with some species having multiple views or related forms shown nearby. The labels are: I, II, III, IV, V, VI, VII, VIII, IX, X, XI, XII, XIII, XIV, and XV. The fish vary in size, shape, and coloration, with some having prominent stripes or spots.

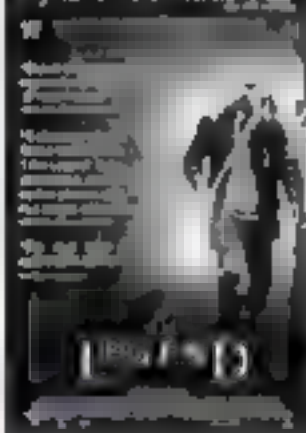

André Gide, *Journal*, 1900-1901, p. 100.

# Tax breaks for producers via subtitling

By Paul Felt  
 A new law that will allow producers to claim a tax credit for the cost of subtitling their films may be a small step, but it's a step in the right direction for the industry. The law, which was passed by Congress last year, allows producers to claim a credit for the cost of subtitling their films for the hearing-impaired. This is a significant step, as it allows producers to claim a credit for the cost of subtitling their films, which is a significant expense. The law also allows producers to claim a credit for the cost of subtitling their films for the hearing-impaired, which is a significant expense. The law also allows producers to claim a credit for the cost of subtitling their films for the hearing-impaired, which is a significant expense.
